Professional Summary

Over the course of 3 years as a Frontend Engineer, I have expressed zeal for growth and demonstrated excellence in developing software applications utilizing agile methodologies, team collaboration, and good problem-solving abilities. I've honed my skills in writing responsive, clean, and scalable codes, understanding the concept of the web, data structures, algorithms, OOP, javascript, and its frameworks, and other design and collaboration tools that make development and team collaboration seamless.

Technical Skills

Technologies: JavaScript ES6, HTML5, CSS, Bootstrap, Data Structures, Algorithms, Object-Oriented Programming, Storybook for documentation, Maven, React test tools, WordPress.

Frameworks: Reactjs, Vuejs, Bootstrap, Styled Component, SCSS, Material UI.

Tools: Git, Bitbucket, Trello, JIRA & Confluence for Scrum/Agile workflows, VS Code IDE, IntelliJ IDEA, Storybook for documentation, Figma for prototyping, Docker for Deployment, Postman, Swagger docs, Chrome dev tools.

Databases: SQL DB

Work Experience
