

Fatima Modupe Bello

As a Frontend Engineer, I have worked with software companies successfully building and deploying software products, translating designs and wireframes into high-quality code, displaying and manipulating data from the backend on the client-side, building functional components, implementing UI logic, pair code review, and performing end-to-end test with the modern frontend tools and technologies across different agile product development teams.

EXPERIENCE

Enyata, Nigeria — *Frontend Engineer*

Mar 2022 - TILL DATE

Build and maintain AQ application and I-Verify.

Technologies: SCSS, JavaScript, Postman, Trello, Reactjs, Vuejs, Typescript, Nextjs.

Hardcore Biometric Systems, Nigeria — *Frontend Engineer*

September 2020 - March 2022

Built and deployed microservice frontend applications for the Nigerian Police Force to carry out criminal investigation and execution processes seamlessly.

Introduced and implemented a design system with React Storybook that improved consistency in development and aided new developer's onboarding by a larger percentage across various teams.

Translated designs and wireframes into high-quality code, and built functional reusable components using React js and styled component, and worked with REST APIs from Swagger docs to integrate with the frontend.

Documented task flow and process improvements in Confluence, updated task progress on Jira, and presented features at demo sessions.

Designed and developed the company's website and optimized it for search engines.

Technologies: JavaScript, Reactjs, React Query, Redux, Context, Storybook, Maven, Jenkins CI, Git, Jira.

Centrifuge Group, Nigeria — *Junior Software Developer*

March 2019 - September 2020

Identified UI problems and fixed bugs on the existing codebase on Bchip and Dhis2 from the client's feedback.

Upgraded, deployed, and troubleshoot Bchip application giving room for continuous improvement.

Built and maintained business websites for clients.

SKILLS

Converting UI prototype to responsive and pixel perfect web applications

HTML

Css/Scss/Sass

Styled Components

Javascript ES6

React

Vue

React Query

StoryBook

React test tools

Tailwind CSS

Rest Apis

TOOLS

Git and Github

Vs Code

Jira & Confluence

Trello

Open Project

BitBucket

Figma

Webpack

Git Actions

Implemented UI prototypes/designs for multiple in-office web-based applications using Figma, and presented features at demo sessions.

Technologies used: HTML, CSS, JavaScript, Figma, WordPress, JavaScript, PHP, MySQL, Linux, Ubuntu.

Docker

Postman

Swagger Docs

Chrome Dev Tools

Nigeria Communication Satellite, Nigeria — *Software Developer Intern*

June 2017 - December 2017

Developed a working knowledge of front and back-end technologies through self-guided tutorials, with an emphasis on object-oriented programming and databases.

Designed and developed a Visitor's Login System, this system solved the problem of unscheduled guests coming into the organization's premises.

Technologies used: MySQL, PHP, HTML, CSS, JavaScript, Linux, Ubuntu.

LANGUAGES

English — Native,

Yoruba.

HOBBIES

Volley Ball, Chess, Making Pastries.

VOLUNTEER

Frontend Foxes Bootcamp cohort 3, Remote — *Frontend Mentor*

August 2022 - October 2022

EDUCATION

Federal University of Technology, Minna, Nigeria — *BTech Information Technology*

PROJECTS

Product Listing App — (<https://github.com/TechieTee/Product-Listing-Page>) (<https://products-listing.netlify.app>)

Built a product listing page and implements a search using the product's title and a filter functionality, filtering products based on the categories. The Project was built with Styled Components, React, Context API, React Testing Library, and Framer Motion.

StarWars App — (<https://github.com/TechieTee/StarWars>) (<https://star-warsoo1.netlify.app/login>)

I learned to put up a full react application from design, to development. some of the skills I honed were creating custom hooks, react-router-dom, authentication, etc.
