

FATIMA MODUPE BELLO

Frontend Engineer(React-Js)

mailtomodupe@gmail.com <https://www.linkedin.com/in/techietee> <https://www.techietee.dev>

Professional Profile

Over the course of 3 years as a Frontend Engineer, I have expressed zeal for growth and demonstrated excellence in developing software applications utilizing agile methodologies, team collaboration, and good problem-solving abilities. I've honed my skills in writing responsive, clean, and scalable codes, understanding the concept of the web, data structures, algorithms, OOP, javascript, javascript frameworks, and other design and collaboration tools that make development and team collaboration seamless.

Professional Experience

Frontend Engineer, Enyata, Lagos, NG (March 2022 – Present)

- Currently Converting Prototyped screens, manipulating data from API on the client-side, end-to-end testing, and building UI functional components using frontend technologies and frameworks.

Technologies: Vuejs, SCSS, Vuex

Frontend Engineer, Hardcore Biometric Systems, Abuja, NG (September 2020 – March 2022)

- Introduced and implemented a design system for consistency in development and design across various teams with React Storybook.
- Built frontend React applications for enterprise standard web applications, Handled state management and logic using React hooks, and documented components as a style guide in React Storybook.
- Converted UI prototypes of product pages into functional reusable UI components using React js and styled-component and working with REST API from Swagger docs to integrate with frontend React applications.
- Documented task flow and process improvements in Confluence, while utilizing other Jira tools to track requirements, tasks, and progress from start to finish.
- Designed and developed the company's website, creating a user-friendly interface that is fully responsive and optimized for search engine indexing.

Technologies: JavaScript, Reactjs, React Query, Redux, Context, React Storybook, Maven, Jenkins CI

Frontend Developer, Centrifuge Group, Abuja, NG (March 2020 – September 2020)

- Worked with the existing codebase to contribute to the development, and upgrading of, user interfaces for quite a number of products.
- Improved the functionality of the page by fixing the UI bug issues from the client's feedback to enhance the user experience.

Technologies: JavaScript, PHP, MySQL, Linux

Frontend Developer Intern, Ihifix Technologies, Kaduna, NG (March 2019 – March 2020)

- Built and maintained business websites for clients with WordPress.
- Implemented UI prototypes/designs for multiple in-office web-based applications using Sketch and Figma.

Technologies: HTML5, CSS, JavaScript, Figma, WordPress

Software Developer Intern, Nigeria Communication Satellite, Abuja, NG (June 2017 – December 2017)

- Developed a working knowledge of front and back-end web design through self-guided tutorials, with an emphasis on object-oriented programming and databases.
- Designed and developed a Visitor's Login System, this system solved the problem of unscheduled guests coming into the organization's premises.

Technologies: JavaScript, PHP, and MySQL

Volunteer Experience
