WORK EXPERIENCE

FrontEnd Developer(Reactjs) Hardcore Biometric Systems

08/2020 - Present

Achievements/Tasks

- I'm currently working on an agile team at Hardcore Biometric Systems and have the opportunity to build enterprise standard web applications for clients.
- Introduced and implemented the design system to be utilized across various teams for consistency in design and development
- Converting Figma prototypes using Reactjs and styled-component to build functional reusable components from scratch.
- Utilizing the micro-front-end architecture for all client applications which improved faster development across the company team
- Handling state management using react hooks, Documenting components, style guides and design systems with storybook.
- Consuming Rest API's from swagger docs.
- Documenting tasks on confluence in Jira and utilizing other Jira tools for project management functions. as well as Built company's website and optimized for search engines.
- Technologies: JavaScript, Typescript, React js, Redux, Context, React Storybook, Maven, Styled Components, Jenkins CI

FrontEnd Developer Centrifuge Group

03/2020 - 08/2020

Achievements/Tasks
